The African Institute for Mathematical Sciences (AIMS) is a pan-African network of centres of excellence for postgraduate training and research in mathematical sciences, and public engagement in STEM. Its mission is to empower talented young Africans to be creative leaders in Science and Technology. The first AIMS centre opened in Cape Town, South Africa in 2003; since 2011, AIMS has opened additional centres in Senegal, Ghana, Cameroon and Rwanda.

Each AIMS Centre provides expertly tailored academic and non-academic programs, training around 60 African students per master program each year and preparing them for leadership in the domains of academia, governance and industry. The AIMS academic program relies on top international lecturers who teach in a 24-hour learning environment.
